

SURF SOLOMONS

10 DAY LAND BASED EXPEDITIONS in the SOLOMON ISLANDS

Experience amazing reef breaks and a unique way of life in a beautiful tropical environment.

Our expeditions work with the local indigenous people.

'Koburu' Surf Season November to April

The Koburu season gives consistent reef break waves from 3 to 6 foot. Beginners to advanced. Crystal clear water, pristine vibrant coloured reef breaks with rainforest backdrops. Many waves never surfed.

Enjoy the simple rituals of village life among amazing biodiversity. Expert guides and welcoming hosts. Fishing, snorkelling, rainforest walks, waterfalls..... and the surf all to yourself!

"Thinking about how good the whole experience was makes me imagine how good the future is. You guys really are at the forefront of discovering new surf breaks and having an amazing experience in the Solomon Islands. It was like nowhere else I have ever been." John, NSW
